

Spring Dance Festival

Dances for Renewal and Healing

Sunday, May 23, 2010
5 – 9 pm

- Celebrate sun, rain, and green growing things
- Offer healing to ourselves, community and the earth
- Plant seeds of renewal and joy

Our evening will include traditional dances, mostly from the Balkans to Armenia, that evoke spring, awakening, and healing. Contemporary dances in the same spirit reflect our evolving tradition. Our location in the springtime, the private yard of Barbara and Michael, will inspire and delight us.

Every dance will be taught first. If you can walk, you can do these dances. Newcomers and beginners are always welcome.

Twin Circles Sacred Circle Dance is a community that dances with the intention of connecting fully to the dance, and through the dance deepening our connection to each other, the earth, and the sacred. Learn more at www.twincircles.org.
